

Bits & Pieces

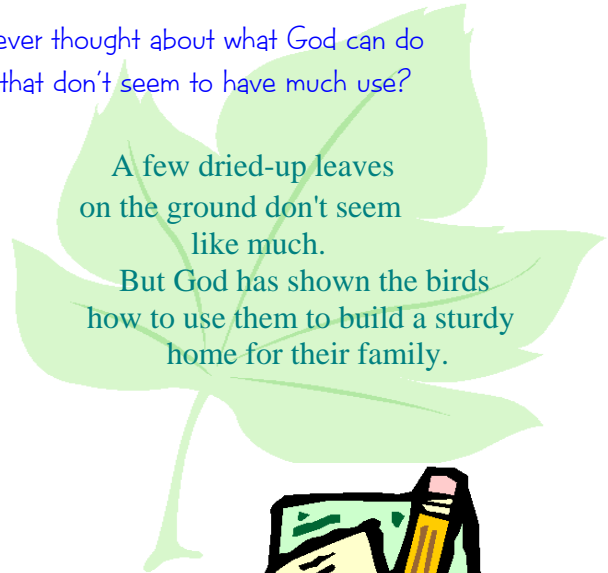

Have you ever thought about what God can do with things that don't seem to have much use?

Think about this...

A few dried-up leaves on the ground don't seem like much.

But God has shown the birds how to use them to build a sturdy home for their family.

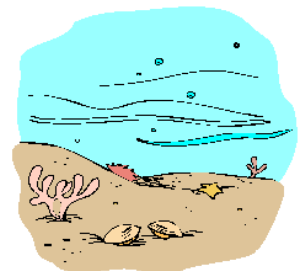

An empty eggshell is tossed out. Yet God has made the eggshell rich with nutrients so that, if you put it into the ground, it helps to feed the vegetables in the garden so we will have good food to eat.

A bit of pencil may be so puny you just want to toss it out. But what if you used it to write a Bible verse to a friend in trouble? It would remind them that God can help.

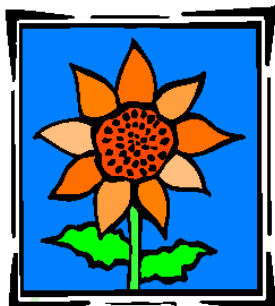

A scrap of paper may be dropped on the street. But God could send a breeze to blow it into the hands of someone who sees a church address on it, where he could go to learn about the Saviour, Jesus.

A lump of dust seems useless. But God used it to make the first human being.

And how about an ugly feeding trough in a smelly old stable?

Well, God saw fit to use it as a cradle for Royalty: The baby Jesus Christ. Jesus lay in such a manger when He was born in Bethlehem.

What seems useless can be precious in God's hands. And if God can use a scrap of paper, a handful of dust, or even a broken eggshell, imagine how wonderfully He could use you, who is so much more valuable than such bits and pieces.

Ask Him to show you what He has in mind for you!
