

Wise Up!!!

What is it about Owls that make them look so wise?
Is it the shape of their big round head?
Or their "hoot" sound in the dark of night?
Or those amazing big round eyes that seem to stare right through you?

It's the eyes. Most definitely.
An owl's eyes are a truly **wonderful creation**.

- ❖ Their eyes are large and always looking forward.
- ❖ They are able to see in the dark.

❖ The owl's eyes aren't eyeballs like ours but tubes that are locked in place, so they can't move side to side.
But that's okay, because God designed the owl's head to be able to turn almost completely around – and upside down!
So an owl can see every which way.

*Did you know that an owl's eye has **three eyelids**?*

- ❖ It has an upper lid & lower lid, plus a special membrane that can be pulled across like a see-through curtain. That membrane protects the eye and keeps it clean, but allows the owl to still see.

Maybe the owl has some secrets to teach us about being wise:

- ❖ Keep your eyes looking straight at Jesus Christ.
- ❖ Depend on the Lord Jesus in the dark times of trouble. He will see you through.
- ❖ Turn fully to the Lord for wisdom and guidance.
- ❖ Depend on God's Holy Spirit to protect you and keep you from sin.

**"For the Lord gives wisdom, and from His mouth come knowledge and understanding."
– Proverbs 2:6**
