

God is Bigger Than That!

Think of the **biggest** thing ever.

What did you think of? A Blue Whale?
A Skyscraper? A Mountain? The Ocean?

God is bigger than that!

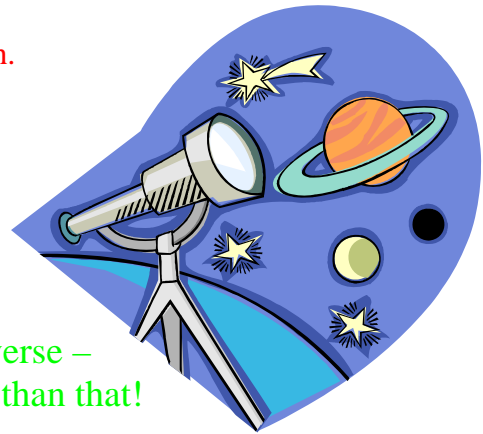

How big is God?

He's bigger than the whole Earth.

He's bigger than the Sun.

He is even bigger than the Universe.

*Is God really bigger
than the Universe?*

God made the Universe –
and yes, He's bigger than that!

But if God is so big, why would He care
about little old me?

Because God has **unlimited love** to go around.

*Did you know that God is bigger
than your biggest problems?*

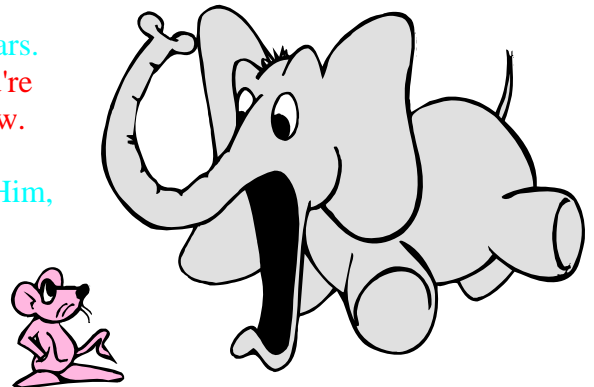

He's bigger than all of your fears.

He's bigger than what you're
worried about right now.

And because He is so big, when we give our love to Him,
we feel bigger and stronger than before.

God is big enough to make even
a little person feel special.

He is big enough for you!

"I know that the LORD is great, that our Lord is greater than all gods."

– Psalm 135:5
